

Blouse and Skirt

Every season has its characteristics which makes it different. These characteristic features are very interesting and they can also affect the emotions and moods that go through one's mind. The showcased skirt and blouse were designed based on this concept.

Corset

The Corset that I have worked here is strapless with a sweetheart-shaped neckline. Through the colour navy blue, a feel of Boldness and Confidence is visible in the garment and the texture of the fabric gives a quality of richness.

Cushion Cover

Joyous Noel, the concept was derived from my inner excitement for celebrating the Christmas season. This Cushion Cover has been made with the technique of weaving and it is done on a wooden frame. During the Christmas season, all houses are decorated with Christmas theme home decors and this Cushion is worked to add beauty to it.

PRIYA ELSE GEORGE

Integrated Textile and Apparel Design

Love towards sustainable fashion and traditional crafts are the main motives that drive me to the passion of becoming a Designer. I believe that each design has its own beauty and a true touch of nature gives a lot unique signature to the design. As a Designer I'm very much interested to explore on different Indian textiles and the techniques used in them, and support the craftsmanship of India.
