

## Skirt and Blouse

I focus on the seasonal outfit in a classy look. My design was inspired by the spring-summer harvest. It gives the feel of cherries berries and blossoms. I designed kick pleat skirt in floral printed fabric it gives the mood of spring blossom and blouse with V neck and tuck in side seam. I believe this garment express the feel of the season.

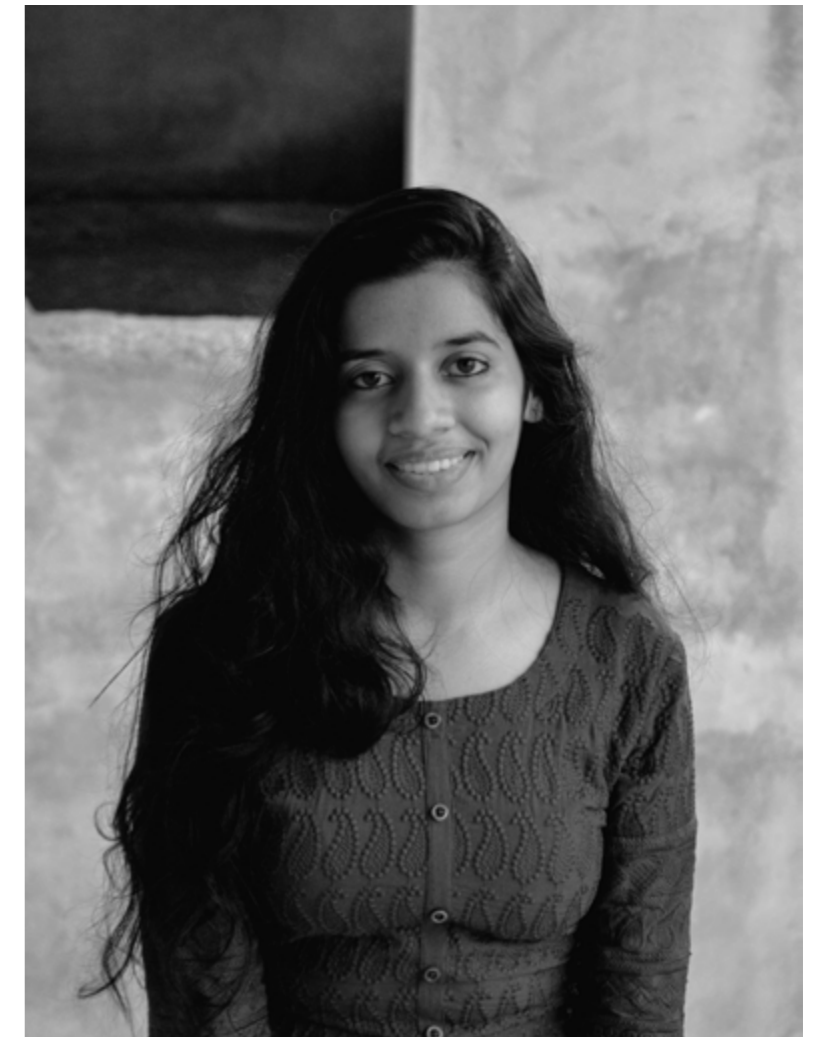

## Study Table Accessories

The collection inspired from seashell creases. I gave the wrinkles on all products that give the texture of seashells. The collection weaved with organic materials. The color of collection gives the feel of earthy. The collection includes table mat, book cover, pen holder and wall hanging.

## Dress

Classic is something of lasting worth or with a timeless quality. I designed the dress with the concept inspired the iconic dress of all times. Khadi material has changed from its traditional face to a western classic look has been brought up. And I take the color from the classic interior. I made drapes garment gathers and hem with flares.

## Silpa K K

Integrated Textile and Apparel Design

Batch 5 2019-2021

As a designer, I have interest to explore both textile and apparel. Especially I like fabric manipulation and fashion illustration. I want my designs to be able to incorporate sustainability and detailing everything.
