

01 Design Project 2
Semester 3
Duration : 6 weeks

How can enhance dishwashing experience

IrvinDot

The **Kitchen Faucet**
for **Dishwashing**

The IrvinDot is designed for reducing pain points in the dishwashing process in the kitchen. With this new kitchen faucet design, I aim at a faucet that helps to enhance the overall dishwashing experience without any compromise.

02 Prototyping Techniques
Semester 3
Duration : 2 weeks

The slipper chair with low-cost materials

Aldric

Aldric is designed with low cost and easily available materials. The chair was fabricated with all ergonomics considerations.

Abin R

Integrated Lifestyle Product Design

Batch 5, 2019-2021

I believe a good design is a perfect balance between user aspirations and function. A good design makes you feel better, it will allow you to experience the function seamlessly. As a designer, the responsibility is huge to serve millions of people through innovative design solutions. Being designer is a kind of pleasure.
