

SKETCHISMO

Sketchismo is a self-initiated project. It is a collection of character designs. The characters are made using black outlines on a plain white background. The project is a mixture of real characters around us with a bit of imagination.

Wheelchair users' access to Movie theaters

The research was about the issues faced by wheelchair users, trying to access the movie theater. It was a group project undertaken in the year 2019. The project made us understand the depth of lives around us.

Branding for Knotted-Wedding Planners

Branding was done for a conceptual wedding planners company called Knotted. Knotted stands for ease and comfort for customers while bringing uniqueness to their services.

Neena Sheff
Batch 5

**Post Graduation Diploma in
IT Integrated Communication Design,
KSID, Kerala.**

Being a designer means that I get to study the emotions of people in depth. It guides me to help them in every way I can. I firmly believe if someone puts their heart and soul into everything they do, they can achieve anything. I show the utmost dedication to the task I have been given and also enjoy working on it.
