

Blouse and Skirt

I designed this garment to give the "Aesthetics" of a particular season. This is a blouse with ruffles and accordion skirt that gives the feel of the spring season. It is inspired by the spring harvest cherries and flowers. And this garment is designed by following the SS21 trend forecast.

Corset

Upcycled items are innovative and eco-friendly. Also it reduces the amount of wastage of fabric. Due to pandemic situation it was difficult to purchase fabric from textile shop, So I upcycled an old skirt into a corset. This is a half corset, Cherry red in colour having lace and loop in the back.

Khadi: Draped Dress Garment

Khadi is a traditional fabric of India. For this garment I took the concept as "khadi into contemporary" and took inspiration from the khadi weaving pattern vertical stripes and solid colour. Also I followed the SS21 trend forecast.

Jacket

A jacket is a short coat. It is worn by both men and women. This is a navy blue solid colour jacket with a removable navy blue colour satin waist cloth belt. There are countless styles and shapes of jackets throughout the history, but each fits neatly to formal and semiformal styles.

Sibitha Babu

Integrated Textile and Apparel Design

Batch 5 2019-2021

I believe that design should be useful and easy to handle. I like to explore sustainable clothing and love to work with Indian craftsmen and to bring the Indian traditional embroidery and paintings as a new form in my designs.

Interested in: Apparel Design, Lifestyle and Fashion, Styling, Draping.
